The Monitor Art Printery

Is the Best Equipped Printing and Publishing House in a Radius of Several Hundred Miles.

We have never said much about our plant. It is really not necessary. We would rather you judged us by the kind of things we print than by the machines upon which we do them.

Still it is worth while to know that we have one of the most complete factories for the manufacture of printing in this part of the state. It is big enough to handle any work no matter how large—particular enough to do justice to any job no matter how dainty—well arranged enough to get out any work on time, no matter how complicated. We promise nothing but what we can do. We do everything we promise. We want you to take just as much pride in the printing we do for you as we do in the shop that produces it.

If there is a business man in this city, or any city near, who has not been able to get the kind of printing he wants at the prices he thinks he ought to pay, it will probably be worth dollars to him to know about our kind of printing.

Telephone, write, come, or we will go to you. We go anywhere for business.
