LIST OF NAMES

Any Business—Any Locality
Accurate and Up-to-the-minute

WE publish over 400 Directories — City, County, State, National and Trade. We furnish real live up-to-date lists of all trades and professions.

¶ As directory publishers we frequently have available for lists the manuscript copy from which directories are being compiled, and thus you may secure information in advance of publication, a service that cannot be had elsewhere.

¶ We have no trade lists—our information is taken from the latest sources, and above all things, is accurate.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyer's Guide on earth. A modern up to date method of getting what you want.

Directory Libraries

¶ Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

¶ City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.
